## Program: YaleSA Matric Repeat Candidate Program for Mathematics and/or Physical Science in 2018

NB: If a learner rewrites subjects through our distance learning program, or takes subjects in addition to Mathematics & Physical Sciences - a personalised quote must be obtained from our administration office.

### **PROGRAM SYNOPSIS**

The program consists of a combination of online lessons and online or on-campus tuition support sessions at our support centre. Students are provided with the opportunity to learn these lessons online, and receive support, intervention and academic instruction at our centre three days a week.

The syllabus covers the entire grade 12 syllabi for mathematics and physical sciences with over 800 exam practice questions, thousands of online generated activities, and mock exam periods. The course allows students to redo their school-based-assessment tasks (SBA) and rewrite their final examinations.

Upon successful completion, an application for a combined statement of results and combined National Senior Certificate will be facilitated by our centre at the candidate's request. Students may use their updated marks for applying to tertiary studies.

### **ACCREDITATION**

YaleSA is a registered assessment and examination centre for the South African Comprehensive Assessment Institute (SACAI). SACAI is an independent examination body like that of the IEB, and is accredited by Umalusi to administer the National Senior Certificate examinations for private candidates and independent schools. Students will be issued a new statement of results for the upgraded subjects. Students may also apply for a combined matric certificate by Umalusi.

### **CONTACT DETAILS**

Imaad Isaacs | Email: [admin@yalesa.org](mailto:admin@yalesa.org) | Cell: 076 449 4978 | Tel: 021 761 1964  
Physical Address: 63 St Johns Road, Lansdowne

---

**Our Values: Faith, Knowledge, Action and Community**

*YaleSA aims to create enabling spaces for young leaders to develop their  
academic, cultural, service, leadership and entrepreneurial abilities.*

*To grow their skills, knowledge, values and character in order to actively address the challenges that face our world.*
