Winter School 2017 Programs
For grades 5-12 from 1 July until 14 July 2017

PROGRAMS' SYNOPSES

The Winter School Programs currently has separate classes and programs for learners from grade 5 to 12. Our philosophy is to go beyond the mere study guide and textbook methodologies and encourage critical thinking. Whilst the Winter School Program offers techniques and methodologies for answering exam questions in senior programs, our tutors place great emphasis on the understanding of concepts rather than the mere memorization of methods for completing examinations.

The available programs are as follows:

Grade 10, 11 and 12 Winter School for Maths and Science

- Specialized classes
- All notes & workbooks included
- Teaching and revision
 - Complete grade 12 syllabus taught and revised in 10 sessions (grade 12 program)
 - Teaching of essential content and revision of terms 1-3 for grade 10 and 11 programs
 - Separate programs for each grade
 - Includes fun experiments and investigations
- Taught by experienced and expert teachers and tutors with over 800 practice questions
- Excellent track record, operating since 2008
- Hosted from 2009-2014 at University of Cape Town
- Maths & Physics Offered
- Six months access to the propriety YaleSA online resource library (grade 11s and 12s)
- 10-day program

SUBJECTS AVAILABLE

GRADE 11 AND 12: MATHEMATICS AND PHYSICAL SCIENCES
GRADE 10: MATHEMATICS AND PHYSICAL SCIENCES

Our Values: Faith, Knowledge, Action and Community

*YaleSA aims to create enabling spaces for young leaders to develop their
academic, cultural, service, leadership and entrepreneurial abilities.*

To grow their skills, knowledge, values and character in order to actively address the challenges that face our world.

Grades 5-9 Winter Math Development and Enrichment Program

This Winter YaleSA will offer an exciting and holistic program for mathematics and applications of science for grades 5 to 9.

- Specialized classes
- All notes & workbooks included
- Teaching and revision
 - Core aspects of CAPS revised and taught in a fun and interactive manner with creative and competent instructors
 - Interactive and investigative activities to give learners a broader understanding of the applications and purposes of mathematics and science
 - Includes fun experiments and investigations
- 3-day program
